What is JBC?

JBC is more than a token—it's a launchpad for meaningful utility, community engagement, and real-world application. We believe that crypto isn't just about speculation; it's about building systems that last. That's why JBC was created: to serve as the foundation of a broader ecosystem built on transparency, contribution, and long-term growth.

Vision & Mission

Our vision is to make decentralized ecosystems more accessible and functional for everyday users. Our mission is to provide an infrastructure that connects communities with opportunities, where commitment and participation are rewarded over hype and noise. JBC aims to reshape how value is earned, shared, and grown.

Focus on Utility and Long-Term Impact

JBC is built with patience and precision. Every element—from our bot system to our staking model—is designed to serve a long-term purpose. We're focused on giving power back to users through task-based rewards, staking benefits, and future utility-first collaborations. This isn't about virality; it's about resilience.

Tokenomics

The $JBC token supply is thoughtfully allocated to fuel real growth, reward community engagement, and support long-term sustainability.
Every percentage serves a purpose — nothing is random.

Contract Address: 0xa9CC0D38E57dBEC771D7EaCd133d509E40cb6473

Vesting System (Fully Automated)

At JBC, our vesting system is designed with simplicity and trust at its core. Tokens allocated to team members, partners, and ecosystem development are released through a fully automated smart contract, without the need for user interaction.

Vesting Distribution Wallet: 0xad5216087A087dB8210c2872aa03faac1Af59476

- No claim buttons
- No wallet connections
- No manual steps

Roadmap

Our roadmap outlines the key phases of JBC's evolution — from concept to community-powered expansion. Each milestone is designed to ensure sustainable growth, utility development, and long-term impact within the Web3 space. This clear and transparent journey reflects our commitment to building with purpose, not hype.

Phase 1: Build

- Establishing the foundation of JBC
- Brand creation and community setup
- Development of core systems (Telegram Bot, smart contracts)
- Internal testing and early-stage development

Phase 2: Launch

- Introduction of the airdrop and referral systems
- Public beta for JBC Bot (task-to-earn functionality)
- Initial distribution of tokens (with automated vesting system)
- Community feedback and ecosystem adjustments

Phase 3: Grow

- Activation of staking and burn mechanisms
- Strengthening partnerships focused on real utility
- Expanding the ecosystem and governance discussions
- Increased community engagement and platform use

Phase 4: Scale

- Full utility and access via LaunchGate
- Release of utility-first partnerships
- Finalization of the whitepaper
- Infrastructure optimization for mass adoption
- Expansion of DAO and community-driven initiatives

The JBC Telegram Bot is your gateway into the ecosystem.

Designed for simplicity and scalability, it allows users to perform simple tasks in exchange for JBC rewards.

What It Does:

- Assigns community tasks
- Tracks user activity
- Rewards points that convert to tokens

Task-to-Earn System:

Complete missions like social sharing, referrals, or content creation. Every action counts and is rewarded transparently.

Reward Logic:

The more you contribute, the more you earn. No hidden algorithms. Everything is visible, fair, and tied to community growth.

User Engagement:

The JBC Bot is built to be interactive and community-focused. Users can track their progress in real-time, ensuring they know exactly how their contributions are impacting the ecosystem.

Team & Core Visionaries

At JBC, our strength lies in the collective effort of the community. We're not just a project driven by individuals; we are a community-driven initiative. Whether the team remains anonymous or not, our focus is always on the people who contribute to the growth and success of the ecosystem. We believe in building, not marketing. “Built by builders, not marketers.”

Vision-Led

Our direction is shaped by clear values and long-term thinking. Every decision reflects purpose and responsibility.

Builder-First

We value substance over show. Our foundation is built by contributors who turn ideas into real-world utility through hands-on creation and relentless execution.

Community-Powered

The heart of JBC is its people. Progress is made possible through shared effort, collective belief, and transparent collaboration.

FAQS

We understand that you may have questions as you get started with JBC. Our FAQ section provides clear and concise answers to the most common inquiries. Whether you're new to crypto or already experienced, you'll find the information you need to participate and engage with the JBC ecosystem. If your question isn't listed, feel free to reach out to our support team for assistance.

Will there be sell pressure?

Our automated vesting and staking design mitigate short-term dumping. We focus on long-term holders and active users.

Is there a pre-sale?

No pre-sale. JBC is committed to fairness. The initial supply will be distributed through airdrops and community growth.

When does the bot go live?

A functional demo is on the way. Full bot deployment will follow shortly after.
